	Make Node a Corner Tool
	Make Node Smooth Tool
	Make Node Symmetrical Tool
	Engage Bezier Handles Tool

- \* Control X = undo, Control Y = redo
- \* Control (spin) on mouse zooms in and out
- \* H = flip horizontal
- \* V = flip vertical
- \* hold Shift to select multiple objects
- \* hold Control when drawing a circle, box, line, etc. to keep X and Y coordinates equal to each other (so perfect circle, perfect box, line at 90°, 45°. etc.)
